VS

Geico

19 CV 570 BBC

A. Parties

1. Plaintiff is a citizen of Wisconsin and resides at 4520 Jenewein Rd, Fitchburg Wisconsin, 53711.

2. Geico is a corporation in Chevy Chase, Maryland 20815

Progressive Auto insurance Mayfield Ohio

B. Statement of Claim

Geico did, in fact, Conspire with Progressive auto insurance to make the decision to find me at fault and pay out a claim by way of an Arbitration agreement. Geico and Progressive did discriminate against me because of my race; African American and criminal background to make the decision that I was at fault for an auto accident.

The accident took place in West Memphis Arkansas on September 16, 2016, in a strip mall parking lot on West Broadway.

Geico and Progressive unethically used the Arbitration Agreement process to illegally find me at fault. The Arbitration Agreement process decision making was in the best interest of both companies and was not ethical or legal.

Geico - Attempting to switch insurance companies would cause Derrell Jones insurance rates to increase because there would be a claim paid out on Derrell Jones Insurance Policy. Geico would not find me at fault in their records and keep my insurance rates about the same. This strategy would significantly increase Geico chances of keeping me as a customer. Competitor rates would tremendously higher because Competitor would see a claim paid out on Derrell Jones policy. Trapping Derrell Jones to stay with Geico.

Progressive- Benefit because Derrell Jones would be at fault and Progressive Auto Insurance would not have to pay out insurance claims.

Geico and Progressive did not allow me to take my claim to court and go before a Judge and have both sides heard fairly before an unbiased Judge in a court of law.

Derrell Jones requested repeatedly between the dates on September 2016 to December 2016. Derrell Jones was only interested in a trial and would not admit to fault in any way shape or form.

In September 2016 Progress did, in fact, use illegal high-pressure integration tactic to intimidate Derrell Jones to admit to fault as well as speaking to Derrell Jones with more aggression because he is African American.

Arbitration Agreement is a violation of Human rights and takes away a person's ability to choose freely to have a trial. Insurance companies cannot collude with each other as Government officials to find policy holder at fault by way of Arbitration Agreements for the reason being Insurance companies will make decisions that are in their own best interests. Furthermore, Insurance Companies proceed with Arbitration Agreement without policy holders present or knowledge. Forcing policy holder to participate in Arbitration Agreements is a violation of the United States Constitution and consumer protection Laws.
